

18"

"Versatile and economical for larger areas"

18" High Velocity Fan

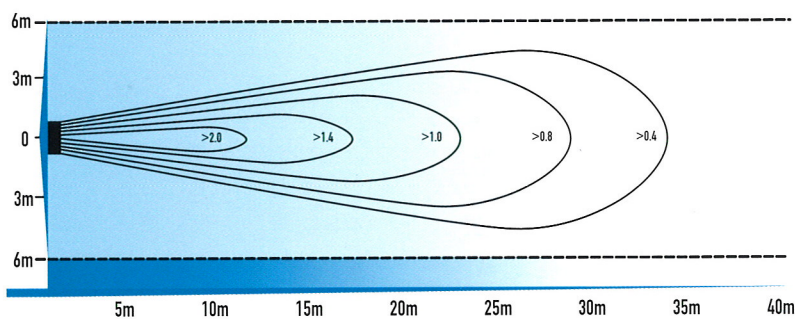

This fan provides air circulation and cooling to larger areas. When yoke mounted, it can be used to remove hot air from inside a 12m box trailer in a docking bay. It also forms an ideal portable unit when fitted to a pedestal base.

Product Specification

	Description	Product Code No.	M3/hr	H.P.	Fan Dimensions, mm (inches)			Shipping Weight	Area of Coverage	Distance Air Throw
					Width	Depth	I.D			
	Ceiling Suspended	NFP 2041	6460	1/2	610 (24)	406 (16)	486 (19 1/8)	24kg	225sq.m	24m
	Yoke Mounted	NFP 2011	6460	1/2	610 (24)	406 (16)	486 (19 1/8)	29kg	225sq.m	24m
	Column Wall Mounted	NFP 2021	6460	1/2	610 (24)	406 (16)	486 (19 1/8)	37kg	225sq.m	24m
	Portable Stroller Base	NFP 2031	6460	1/2	610 (24)	406 (16)	486 (19 1/8)	44kg	185sq.m	21m

- 24 metre air throw
- 110V or 240V power supply
- 3 phase motors available
- 2 years warranty
- Speed control available

Air Flow Pattern

Truck Cooler Performance

See truck cooler mount on page 10
Note: Velocities measured in metres per second.

The Benefits

- Increase productivity
- Improve indoor air quality
- Improve air circulation
